Good afternoon Ms. Gosey,

First and foremost, I wanted to thank you for meeting with Annah and myself today. We appreciate your time and your candor in describing the work you are doing to help the local community. During our conversation you mentioned that the people you're helping would benefit from some of our outreach materials. Please see attached.

We have forwarded your request for printed materials to our leadership and will let you know as soon as we get an answer.

Please let us know if there is anything else we can assist you with. Remember that the support provided by the EPA is at **no cost** and we're here for you. If you find that there is more we can do to support your team and the community, please let us know.

Here are a couple links you might find helpful for posting if you have social media pages:
